

# DARWIN NEXT STAGE i-Size

i-Size car seat (40-105 cm) - ECE R129/03

CAR SEATS

Continuous car seat, combined with the Darwin 360° i-Size base. Approved according to the ECE R129/03 regulation, suitable from 40 cm (from birth) until the child is 105 cm tall (about 4 years old). To be positioned rearward facing for use until the child is about 15 months and forward facing thereafter.

## *The next stage car seat.*

Darwin Next Stage i-Size is the car seat that can be used with the same base as the standard seat (Darwin 360° base), completing the car system, from 0 until the child is 4 years old, without the need for another car seat.

Combined with the Darwin 360° i-Size base, it includes all the advantages of rotation. It can also be used as an alternative to the standard car seat, should the latter be used in another car.

The generous dimensions and the tilt angle guarantee the child an ideal posture. Can be reclined to 4 positions for a guaranteed comfortable and relaxing journey.

The headrest can be adjusted to 5 positions via a central control, and is integrated with the harness system to easily adapt to the growth of your child.

Rearward facing from 40 to 105 cm and at least until the child is 15 months old, namely up to 75 cm tall.

Forward facing after the child is 15 months old, approximately from 76 - 105 cm tall.
